NO ATTEMPT IN 16 YEARS

To Improperly Influence Solons Within Knowledge of Penrose.

WORK OF AGENTS HELD LEGITIMATE

Pennsylvania Senator Says Lobby is Principally Thing of the Past.

Washington, June 3.—Senator Penrose today told the special senate committee hunting for "the lobby" that in his sixteen years' experience in Washington he never had known of any attempts to improperly influence members of congress. He gave the names of 175 persons who had called on him since Jan. 1 on the tariff, but declared that none were "lobbyists" in the general acceptance of the term.

"It is well known that certain interests have agents here," said the senator, "and I suppose they are paid salaries. They evidently get information for their organizations. Their work is perfectly legitimate. I have seen Mr. Burgess for the pottery interests here for years and Mr. Brown for the cotton people. Their work is perfectly legitimate as far as I know. My own opinion is that the lobby is principally a thing of the past. Congressional committees pay little attention to it now."

Mere Present Arguments.

Senator Penrose thought probably Winthrop Marvin, of Boston, represented the "wool people" in Washington and Senator Reed was insistent to learn if Marvin ever had anything to do with fixing the tariff on wool or Brown with the cotton tariff. Senator Penrose insisted men did nothing more than present arguments to senators and representatives and that neither had anything to do with making the rates of the Payne law.

Senator Reed developed on cross-examination, however, that Marvin at one time was secretary of a joint congressional committee to investigate the merchant marine.

Senator Penrose was the liveliest witness of the morning session. Other senators testified they knew of no undue influences and told of their personal in-

MOTHER SENTENCES HER SON IN JUVENILE COURT.

Chicago, June 3.—A mother was called upon to pass sentence upon her 13-year-old son in the juvenile court yesterday after the boy had been found guilty of snatching a pocket book from a woman on the streets.

Judge Pinckney asked Mrs. Anna Burek, who had heard the testimony against her son, Joseph, to determine his punishment.

"You must earn the money to pay for what you stole," said the mother. "You must promise to be in bed every night by 9 o'clock or I'll ask the judge to send you away until your hair grows gray," was her ruling.

The court considered the decision good and approved the sentence.

FOURTH OUTBREAK OF GRASSHOPPERS

Kansas, New Mexico, Idaho and California Report Ravages.

CROPS ARE MENACED

Washington, June 3.—"This looks like a grasshopper year," was the comment today of Prof. F. M. Webster, of the bureau of entomology, after the fourth outbreak of the invaders had been reported to him. The latest appearance of the "hoppers" is in Kansas, previous states afflicted being New Mexico, Idaho and California. The department of agriculture regards the New Mexico outbreak so serious that Harrison Smith, an expert in the division of forage insect investigation, has been ordered to that state.

CALIFORNIA INVADED.

Sacramento, Cal., June 3.—From San Diego county, in the south, to Shasta, in the north, various sections of California are in the "grip of the grasshopper" and unless an extensive campaign of extermination is prosecuted by farmers and fruit growers heavy damage to some crops may result. This warning was given out today by State Horticulturalist A. J. Cook after the receipt of reports of widespread attacks by the pests.

Nearly all sections of the great Sacramento valley have been invaded by the insects and many requests for help are coming to Dr. Cook. Full grown fruit trees are being attacked by the young hoppers.

IS FIRST OF ITS KIND IN AMERICA

State Conference on Agricultural and Country Life Opens.

RALSTON IN WELCOME

Indianapolis, Ind., June 3.—Gov. Ralston today welcomed representatives of a score of Indiana organizations interested in the development of social resources at the state conference on agricultural and country life, said to be the first meeting of its kind held in the United States. Preparations for the meeting were started by the Indiana Bankers' association, which was joined by Indiana and Purdue universities and other state organizations.

About every phase of farming, as it is followed in Indiana, will be discussed during the five sessions of the conference. Not only will means for increasing the production of the soil be taken up, but the social and religious side of country life will be talked over.

Vocational training, as provided for in the Stahl-Yarling law passed by the recent legislature, has a prominent place on the program. Marketing also will be the subject of several papers. A number of experts from other states will address the conference, which is open to the public.

Judge Gary Testifies Regarding Gary Dinners to Steel Men.

MERELY SOUGHT A FRIENDLY FEELING

But His Company Was Later Given Double Cross by Its Rivals.

New York, June 3.—Price fixing, as charged by the government, was not the subject of the so-called Gary dinners to steel manufacturers, according to Judge E. H. Gary, chairman of the United States Steel corporation, who was a witness in the government dissolution suit today.

He said that when the first dinner was called during the panic of 1907 there was "danger of getting back to the old days of destructive competition and tricky, dishonest warfare."

"The purpose of these dinners," he continued, "was to bring manufacturers together to establish a friendly feeling in order to prevent such demoralization and establish stability of business. It was my object to prevent—not by agreement but by exhortation—wide and sudden fluctuations of prices which would have been injurious to steel manufacturers. There was no agreement expressed or implied to fix prices. It was proposed that each manufacturer let the other

MARRIAGE DELAYED WHEN GOAT EATS THE LICENSE.

Lawrenceburg, Ind., June 3.—One ribbon of baby blue, a bridegroom's attempt to tie the ribbon instead of asking his bride-to-be to do so, a little gust of wind and a mischievous and hungry goat brought trouble to Charles W. Gribben, aged 69, and Mrs. Anna King Chance, age 34, and delayed a marriage. Mr. Gribben, a farmer from near Bennington, and Mrs. Chance, a widow, obtained a license to marry and had started in a touring car to the bride's home to be married. The ribbon around the precious document became untied and Mr. Gribben tried to tie it. As he was fumbling with the ribbon the little zephyr tossed the parchment to a goat that was watching greedily from a field. The goat had a breakfast. The preacher waited until they got another license.

Senator Simmons Hazards Guess After a Talk With Wilson.

BILL NEARLY READY

Washington, June 3.—Senator Simmons, chairman of the senate finance committee, after a conference with President Wilson today said he believed that when the tariff bill is ready for consideration by the democratic caucus next week, cattle, wheat, meats and flour very probably will be on the free list.

It has been reported that the subcommittee in charge of the amendment scheduled had determined to put a nominal duty on meats and flour in order to equalize them with the free listing of cattle and wheat, but Mr. Simmons declared after his talk with the president that he expected both the raw material and the finished product to be free listed. He declined to say whether the change had been made at the instance of the president or senators. He said that the bill would be considered by the caucus all next week and the report of the committee the following week.

DR. W. F. MYERS IS REAPPOINTED

Fort Wayne Man Again Member of State Veterinary Board.

ONE NEW SELECTION

Indianapolis, Ind., June 3.—Governor Ralston today announced the appointment of two members of the state board of veterinary examiners. Dr. Thomas A. Sigler, of Greencastle, was appointed to succeed Dr. John G. Heron, of Tipton. His appointment dates from April 19 and is for four years.

Dr. W. F. Myers, of Fort Wayne, was reappointed. These appointments complete the personnel of the board.

Dr. George H. Whiteledge, of Anderson, has been appointed by the governor as the oculist member of the state board of optometry, to take the place of Dr. Thomas C. Hood, of Indianapolis, who was named for the place, but announced he could not accept.

WOMAN HURT AS RANGE EXPLODES

Mrs. D. J. O'Niel Has Narrow Escape from Death in Her Home.

KITCHEN IS A WRECK

Mrs. D. J. O'Niel, of 1325 West Washington boulevard, miraculously escaped death at 11 o'clock this morning when from some mysterious cause a heavy steel range in which wood was being burned for fuel in her kitchen exploded with terrific force. The stove was blown into fragments, heavy pieces of steel punctured the walls adjoining the kitchen, and Mrs. O'Niel was hurled six feet through the kitchen door to a back porch. The explosion was heard for several blocks in all directions and caused much alarm in the west side.

The force of the blast tore away the entire front of the range and the only reason Mrs. O'Niel was not seriously injured or perhaps killed instantly, was due to the fact that she was kneeling on the floor at the side of the stove attending to some pies she had just placed in the oven.

She suffered slight injuries from flying steel and her right hand was pierced by a portion of the stove. She was under medical care, however, after the accident on account of the severe shock to her nervous system. At the time of the explosion she was in the kitchen alone.

Cause a Mystery.

The cause of the explosion is yet a mystery, but it is believed by members of the family that some powerful explosives were buried in the wood with which the stove was being heated. The wood was purchased from a handle factory, and the O'Niel family had been burning the same sort of fuel for the past two years. When members of the family in other parts of the residence rushed to the kitchen, they thought that it was a gas explosion, but investigation satisfied them that the gas fixtures were still intact. An investigation will be made to ascertain the cause of the disaster.

FACE PERIOD OF MEAT SHORTAGE

Conservation of Supply is Urged in Government Bulletin.

ISSUES A WARNING

Washington, June 3.—The demand for beef far exceeds the supply and high prices are the result, says a bulletin issued today by the department of agriculture. The shortage in the supply of meat producing animals, too, is steadily becoming greater and the country is warned that it is facing a period of short production of meat.

In the past six years there has been a decline of more than 30 per cent in the number of beef cattle in the United States, according to the department, and already during the first six months of this year there has been an approximate decrease of 13 per cent in the number of meat animals killed under government supervision when compared with the same three months of 1912. Estimate of the department give the number of beef cattle in the United States on January 1, 1907, as 51,566,000, and at the beginning of the present year as 36,030,000.

Prices paid for cattle, sheep, lambs and hogs last year were much higher than the preceding year. "The year 1912," says the department, "was a year of high prices for all classes of food animals."

With the diminished production in the home market, the department declares, there is no longer a surplus for export.

"The time has come," it says, "when we must conserve our meat supply."

Insist They Should Pay the $200 Wholesale Fee for Privilege.

A committee consisting of John Helmkamp, Chris Hegerfeld and Arthur Ortlieb called on Mayor Jesse Grice this morning in the interest of the retail liquor dealers and requested him to investigate the sale of beer by grocers with a view of requiring them to take out wholesale licenses at a cost of $200 a year.

It is charged that a number of grocers in the city deliver bottled beer to their customers and that they do not pay for the privilege under the Proctor law, which specifies that they must pay the license fee. They cited a number of cases in support of their argument and the mayor promised that he would refer the matter to the board of public safety at its meeting tonight and if the law is being violated he will have steps taken to stop the custom.

All of these grocers operate under a government license at a cost of $25 a

HE SAYS CANCER IS CONTAGIOUS

Is Due to Parasite and Can Be Healed, Says German Expert.

HAS SERUM TO CURE

Cologne, Germany, June 3.—Cancer has been proved to be a contagious disease caused by a parasite and it can be healed, according to Dr. Otto Schmidt, a cancer expert, who reported at yesterday's meeting of the medical society here the result of his investigation into the origin of and the possibility of curing cancer.

Dr. Schmidt declared that he had proved through experiments and had confirmed his finding by means of repeated tests that the disease is contagious, brought about by the presence of a parasite which he had discovered in cancerous growths. He said he proved a vaccine with which he had healed numerous serious cases of cancer. His treatment, he says, brings about immunization against further attacks. The immunization is accompanied by a serum obtained from animals. Dr. Schmidt requested the medical society to appoint a commission to investigate his serum.

BRYAN WOULD HALT THE WHITE RADISH DELUGE.

Washington, June 3.—Already five packages of white radishes have been received by Secretary Bryan as a result of the announcement that he had sought in vain in the markets for that appetizing vegetable. The secretary protested he had not been to market in search of white radishes, but admitted that during a recent absence of Mrs. Bryan from the city he had bought some of the vegetables at a grocery. Now he wishes it known that he is in no need of contributions of this kind and that he does not do the family marketing.

Weather Comment

A. D. PALMER, the plastering contractor, living at 319 West Pontiac street, was walking rapidly along Calhoun street the other day when he passed two ladies going in the same direction. When he was nearest to them, he overheard just enough of their conversation to discover that they were discussing the weather conditions.

"But," said one, "the prediction for tomorrow is clear and warmer and—"

"Prediction!" exclaimed the other. "But what does Palmer know about it anyway? Say—" and as Mr. Palmer went on the remainder of the conversation was lost. He knew, of course, that the women were discussing W. S. Palmer, of the weather bureau, and he smiled as he proceeded on his way. Just then, he was halted by a friend whom he had not seen for some time, and the latter greeted him with a hearty laugh and a handshake.

"Well, well!" said the friend in a loud voice, "How are you! I'm glad to see you, Palmer, old boy!"

At that moment, the women whom Mr. Palmer had overtaken and passed were walking by him and his friend, so close that they heard the friend's loud greeting. They turned a startled gaze at the man who was addressed as Mr. Palmer, and concluded, of course, that he had been the subject of their comments. Not only that, but they discovered from the look which Mr. Palmer gave them, that he had overheard their remarks.

"The expression on their faces," said Mr. Palmer in describing the incident, "was so comical that I had a good laugh over it. And I suppose they still think I'm the weather man."

Pierces Thick Wall.

The force of the explosion was demonstrated when a large hole was found in the wall facing the front of the range. A piece of steel about six inches long and three inches wide was blown entirely through the wall which is about one and a half feet thick. The iron continued its course through the partition until it had reached a china closet in the dining room wall. Large holes were torn in the ceiling and floor and the kitchen was damaged to the extent of several dollars.

Was Turning a Pie.

Mrs. O'Niel stated after the accident that the stove had been fired unusually heavy because of the baking. Bread dough had been placed in baking pans and was ready for the oven, and Mrs. O'Niel says she was turning the pies when suddenly the explosion occurred. She does not know any more about the cause of the accident than do other members of the family.

Mrs. O'Niel is the widow of the late D. J. O'Niel, formerly an engineer of the Lake Erie & Western road, who passed away a few weeks ago.

RESTS HIS CASE WITHOUT DEFENSE

(Continued from Page 1.)

Breen, of Lawrence, and the latter, Ernest W. Pittman, of Andover, to "plant" dynamite at Lawrence to discredit the striking textile workers in January, 1912.

After a few minutes consultation following the closing of the government's case, Attorney Hulbert announced that the case for Wood also rested. He said that his client would offer no defense and requested the court to instruct the jury to return a verdict of not guilty on the indictment of Mr. Wood.

The cross examination of Arthur Piera, whose testimony in the so-called dynamite conspiracy trial in the superior court was the feature of yesterday's proceedings, was resumed today. Piera, a taxicab chauffeur, was produced by the government yesterday in an effort to connect William M. Wood, of the American Woolen company; Frederick E. Atteaux, a dye manufacturer; Dennis J. Collins, a dog fancier, with the alleged plot to "plant" dynamite in Lawrence to discredit the strikers during the Lawrence textile mills strike last year.

Piera testified about driving a man resembling Atteaux from the residence of President Wood to the corner of Franklin and Washington streets, this city, to a Court street saloon back to Franklin street and then to the club house of the Boston Athletic association on the evening of January 19, 1912, the date upon which the dynamite was "planted."

Could Not Remember.

Daniel Coakley, counsel for Atteaux, asked today about a conversation between the witness and a friend named Peterson, Piera said that he did not remember saying in regard to his visit to the district attorney's office: "They treated me fine down there; they gave me cigars and used me right. If I ever get 'pinched' again I'm in right."

District Attorney Joseph Pelletier offered in evidence the taxicab company's records for Piera's movements of January 19.

When the card was exhibited to the jurors, one of the jurors surprised the court and counsel by discovering that the exhibit bore the date of January 19, 1911, a year before the dynamite was "planted."

The next witness, Albert L. Martin, agent of the taxicab company, testified that he could not tell from personal knowledge whether the exhibit was a record for 1911 or 1912. He examined a great number of other cards bearing serial numbers preceding and following the number on the disputed exhibit, and all of them were dated 1912.

After a conference between counsel at the bench Mr. Pelletier announced that counsel had agreed as to certain facts which would tend to indicate that the disputed taxicab card was issued in 1912.

year and the saloon men argue that as they are required to pay heavily to remain in business that they are entitled to the protection. None of the grocers sell any beer to be drunk on the premises, but simply supply it in cases and deliver it.

Need More Can Wagons.

Homer Krick, superintendent of the crematory, says that there are so many calls for the light wagons used for the collection of cans and broken dishes that he has been unable to meet them all and that he is unable to remove them as rapidly as he would like to.

The ordinance provides that separate wagons shall be maintained for this purpose, but does not specify how many. There are now two in the service and each is expected to cover half the city.

Are Investigating.

Just what action the board of public works will be able to take in the matter of protecting Lakeside from high water has not been determined today, but a committee consisting of George Waldschmidt, John Rissing, John Ague, O. E. Richards and Homer C. Underwood has been promised that it will receive proper attention.

With the exception of a break in the Walton avenue dike all the breaks have been repaired and the protection now is the same as it was before the unprecedented rise of last March. A concrete wall a foot higher than the present dike on St. Joe boulevard was proposed and plans shown. Plans were also discussed for raising the dike from the Columbia avenue bridge east and if the city does not want to take immediate action it is proposed to do the work and assess the cost against the property affected.

know what he was doing, what he was charging, what wages he paid and what methods he employed. It was our purpose to come together as friends, not as enemies."

When Plan Failed.

This "co-operative plan" subsequently failed to work, the witness continued, and in 1909 the corporation was "forced to abandon the plan of giving information to other manufacturers," because his corporation was not being treated fairly. He said the other companies had one price to publish and a lower one for selling purposes.

Judge Gary denied the existence of an international rail pool, as testified to by William E. Corey, former president of the corporation.

"Of course I must admit that Mr. Corey might have made an agreement and kept it secret from me, but I have no reason to think he did," said the witness.

"The impression that there is a big profit in steel rails is wrong," said the witness.

terests. The list of 175 names which Mr. Penrose gave the committee was made up of manufacturers, labor leaders, attorneys, importers and others who feared they would be affected by tariff changes. The steel industry and coal interests of Pennsylvania have had no permanent representatives in Washington for many years, Senator Penrose said.

Died Out Years Ago.

Their custom of keeping representatives in Washington "died out ten or twelve years ago." He estimated that not more than 40 per cent as many persons had come to Washington on tariff business this year as compared with four years ago, but reiterated that the persons here now were here at previous tariff revisions.

The second day of the senate probe for "the lobby" began with approximately one-fifth of the total number of senators disposed of. At such a rate of progress it would take four days more to finish the investigation. The senate has allowed ten.

Working with morning, afternoon and night sessions and under the consent of the senate itself to absent themselves from regular sessions in order to hear witnesses, members of the sub-committee taking the testimony were confident today they would finish this week. Senator Brady, of Idaho, one of the new members, had not finished his testimony when the investigators stopped last night and he was ready to proceed today. The first day's inquiry had not definitely located "the lobby" nor developed the names of any "lobbyists" using improper methods, in the opinion of senators, to influence their action on the tariff.

McLean First Witness.

Senator McLean, however, was called as the first witness. He testified he was a small stockholder in several corporations, but he had never sought to influence senators because of his interests. He gave a list of various callers who discussed the tariff with him, but he considered none of them lobbyists.

Among Senator McLean's Connecticut callers were Marcus L. Floyd of Hartford and Fred Griffin of Tariffville; Horace B. Cheney, South Manchester; George E. Cheney, Deep River; I. D. Russell, New Britain; Col. W. W. Skiddy, Stamford; Frederick E. Kip, Bridgeport; H. M. Greist and a Mr. Ensign.

Audience Thins Down.

The audience at today's inquiry thinned down to four within the first hour.

Senator Dillingham testified he had no financial interest in any business affected by the tariff or other legislation and represented no one who had. He could not remember the names of persons who had talked with him except a Mr. Ullman of New York, who urged that no duty be put on green furs. He knew of no money used to effect legislation.

Senator Fletcher gave among the names of his visitors C. E. Berriman of Chicago and Tampa, in regard to Havana cigars; G. Harold Powell, representing California citrus fruit interests, and a Mr. Davie of Colorado and Florida, concerning beet sugar business.

Senator Fall testified he was a large owner of cattle, horses, sheep and coal. He gave the names of cattle men who had visited him in the interest of restrictions on the importation of meat and officials of a wool growers' association urging duties on wool. Under cross-examination Senator Fall said a Mr. Burbridge of Colorado, whom he believed was interested in the zinc "trust," had talked to him.

Attitude of Indifference.

"His attitude was one of indifference," explained Senator Fall. "He was not a lobbyist or dishonest."

Senator Gronna testified he was interested in farming and knew of no lobbying. He never had been approached improperly regarding any legislation.

"I do not believe there is any such thing as corrupt action going on at either end of the capitol," he declared.

Senator Gronna gave the names of John Crosby and Charles C. Bosley of Minneapolis, representing Minneapolis flour milling companies, who presented arguments to him in support of a duty on flour.

The committee then recessed to 3:15 p. m.

"I am going into the meeting to move to put cattle and wheat on the free list," said Mr. Simmons, "I don't know what the committee will do about it."

The committee then went into session behind closed doors.

After the sub-committee had heard the motion by Senator Simmons, Senator Williams stated that it would be considered, and probably acted upon later today. The prevailing impression was that the committee would meet the views of President Wilson and free list cattle and wheat. Senator Williams indicated he was in accord with that view.

Expert at Peru Suggests General Removal of River Obstructions.

Peru, Ind., June 3.—Daniel W. Meade, expert engineer, called to Peru to make an investigation of the flood conditions here, has rendered his report to the board of commissioners. His conclusions are that all cities along the Wabash river should unite in an action to remove from the river all sandbars and trees which are to be found below the bridges in this and other cities. He also advises the raising of all bridges and the building of dikes on either side of the stream. Furthermore, he suggests that there be some state and national legislation regarding the care and improvement of all the rivers, not alone the Wabash.

New York, June 3.—Isaac Theise, a Maiden Lane diamond dealer, reported to the police this afternoon gems worth between $40,000 and $50,000 had been stolen from his place of business while he was absent during the lunch hour. The thief made a clean get-away, leaving no clue. The jewels, according to Theise, were all in one satchel. The thief had but to force the door of the establishment, which is on the eleventh floor of 47 Maiden Lane, seize the satchel and slip out of the building.

REV. LAUDEMAN CHOSEN.

Bethel Church Pastor Secretary Ministerial Association.

Rev. E. Q. Laudeman, pastor of Bethel Evangelical church, was appointed secretary of the Ministerial association held yesterday afternoon in place of Rev. C. E. Ehle, who resigned on the grounds of ill-health. In discussing plans for the coming year's work, it was suggested that the ministers meet with representatives of the public schools, either the principals or the board of trustees for conference concerning the general uplift of students.

Rev. C. H. Snashall, of the First Baptist church, and Rev. C. O. Shirey, of Bethany Presbyterian church, were named at a meeting of the Ministerial association yesterday afternoon, to preach on the subject of the Sunday theater entertainments, next Sunday. Owing to the absence from the meeting of the Rev. H. B. Master and Rev. Dr. Zartman, who left today for Europe, but one remaining member of the committee which had been behind the movement to close Sunday vaudeville and moving picture houses, was present. He, Rev. W. A. Griest, was present at the meeting, but did not refer to the subject.

It was decided to take no action concerning the coming of Revivalist Billy Sunday between the dates of June 18 and June 29, until it was learned whether he intended coming or not. It has not been learned if the evangelist really has planned to visit Fort Wayne or not.

Prof. Shaw, of Taylor university, gave a short talk and a collection was taken to send flowers to St. Joseph's hospital for Rev. A. R. Evans, who is confined there because of injuries sustained in an accident last Thursday.

Methodists of the City Planning a Big Work for June 5 to 18.

With a big, important three days' campaign ahead of them, the Methodists of the city are busy talking and getting ready for a social service campaign which is to be conducted here on June 15, 16 and 17 by Henry F Ward. Mr. Ward is a founder and leader of this movement which is along the line of social settlement work. For ten years Mr. Ward has been at the head of the settlements and institutional churches in Chicago, in the Polish quarter and in the stockyard district, and he has been actively associated with social workers and labor leaders in that city.

These meetings are not merely for the churches but for the community. The plan is to discover what religion means in terms of the welfare of the community and then to make practical work of it.

Mr. Grouch—"I'm going to have the gas range taken out! I won't pay another bill this size! It's using the range all day on washday that costs so much."

Anty Drudge—"Do stop fussing about that bill! Just get your wife a cake of Fels-Naptha Soap. You won't have any more quarrels, because she doesn't need to use hot water, and can save gas."

Certainly no woman would deliberately make part of her work twice as hard and take twice as long as is necessary.

Yet that is what the woman is doing who clings to the old-fashioned way of washing clothes.

Fels-Naptha Soap will do all the hard work, will get the dirt out of the clothes without boiling or hard rubbing, in half the time, and in cool or lukewarm water.

NEWS OF FORT WAYNE'S NEIGHBORS

NO EXTENSIONS IN NEAR FUTURE

Northwestern Trolley Line Head Gives Denial to Newest Interurban Rumor.

Kendallville, Ind., June 3.—"The Fort Wayne & Northwestern has neither considered nor is contemplating any road extensions for the present or immediate future," was the declaration of General Superintendent C. J. Munton Monday morning when shown the "dope" story emanating from Fort Wayne to the effect that the Fort Wayne & Northwestern was planning to make an extension from Huntertown to Churubusco.

"Thus far the company has had nothing in mind but maintenance and operation of the road," was the further remark of Mr. Munton. "Since the reorganization in which most of the bondholders holding the $1,250,000 issue exchanged their stock for bonds and a new issue of $375,000 was made, we have been busy building up and operating the line; also when the time comes for extensions it will probably be to the east and west, so as to get through connections, not short stub-end lines."

Mr. Munton said that some effort had been made by the Churubusco people to have the line extended there; that Editor Cook of the Truth had taken the matter up with the company but that he had been told that the company was in no positon to build such a line now. However, Mr. Cook was informed that if the people of Churubusco would build the line, the Fort Wayne & Northwestern would consider leasing it and operating cars at a nominal rental.

THE SENTINEL'S DAILY SCRIPTURE READING.

11 Kings, 19:5-20.

5. So the servants of king Hezekiah came to Isaiah.

6. And Isaiah said unto them, Thus shall ye say to your master, Thus saith the Lord, Be not afraid of the words which thou hast heard, with which the servants of the king of Asayria have blasphemed me.

7. Behold, I will send a blast upon him, and he shall hear a rumour, and shall return to his own land; and I will cause him to fall by the sword in his own land.

8. So Rab-shakeh returned, and found the king of Assyria warring against Libnah: for he had heard that he was departed from Lachish.

9. And when he heard say of Tirhakah king of Ethiopia, Behold, he is come out to fight against thee: he sent messengers again unto Hezekiah, saying,

10. Thus shall ye speak to Hezekiah king of Judah, saying, Let not thy God in whom thou trustest deceive thee, saying, Jerusalem shall not be delivered into the hands of the king of Assyria.

11. Behold, thou hast heard what the kings of Assyria have done to all lands, by destroying them utterly: and shalt thou be delivered?

12. Have the gods of the nations delivered them which my fathers have destroyed; as Gozan, and Haran, and Rezeph, and the children of Eden which were in Thelasar?

13. Where is the king of Hamath, and the king of Arpad, and the king of the city of Sepharvaim, of Hena, and Ivah?

14. And Hezekiah received the letter of the hand of the messengers, and read it: and Hezekiah went up into the house of the Lord, and spread it before the Lord.

15. And Hezekiah prayed before the Lord, and said, O Lord God of Israel, which dwellest between the cherubims, thou are the God, even thou alone, of all the kingdoms of the earth: thou hast made heaven and earth.

16. Lord, bow down thine ear, and hear: open, Lord, thine eyes, and see: and hear the words of Sennacherib, which hath sent him to reproach the living God.

17. Of a truth, Lord, the kings of Assyria have destroyed the nations and their lands,

18. And have cast their gods into the fire: for they were no gods, but the work of men's hands, wood and stone: therefore they have destroyed them.

19. Now therefore, O Lord our God, I beseech thee, save thou us out of his hand, that all the kingdoms of the earth may know that thou art the Lord God, even thou only.

20. Then Isaiah the son of Amoz sent to Hezekiah, saying, Thus saith the Lord God of Israel, That which thou hast prayed to me against Sennacherib king of Assyria I have heard.

Demands of the Schools.

Patrons of the McCulloch school are giving forceful voice to their belief that there should be a bettering of sanitary conditions and enlarged school facilities at that building, and have taken up the matter with the city school board. We believe there will be full accord in the view that improvements are needed, and we think the school board may be depended upon to provide them just as soon as it is possible to do so. The enlarged demand for school facilities in a growing city like Fort Wayne constitutes a problem of no small proportions. The school board is confronted by demands of similar character from many sections of the city, and it has but one dependable source of revenue—the levying of taxes under the rate which it must fix each year. Under the law the authority of the board in this direction is practically absolute, yet unless the rate be kept within what the public, even without an intimate knowledge of the total demands, considers reasonable bounds, a storm of protest is inevitable. With the demand for improvements, added facilities and new buildings on one hand, and the necessity of holding down the tax rate upon the other, the school board finds itself between two uncomfortably hot fires the greater part of the time. The desire of patrons of the several school districts to obtain for their children the highest possible advantages is an entirely natural one and there can be no criticism on that score, and The Sentinel trusts a way may be found to give the McCulloch district, as well as others similarly situated, what they ought to have. The city school board has for some years been fully responsive to the steadily increasing demands upon it, and it is showing no disposition to halt in its march of progress.

Representative Cline has again been named as a member of the democratic congressional committee, and is being seriously considered in connection with the chairmanship of that body. The Twelfth district member has won for himself a place of power in congress that will make his services to this district additionally valuable

The average loss a day from fires in Indiana during the month of May exceeded $30,000 according to a summary prepared from reports submitted to State Fire Marshal Longley. The new department may not yet have its preventive plans in complete operation, but it must be admitted that it is supplying some very impressive figures on the waste from fire losses in Indiana.

Doubtless upon the principle that the way to prevent floods is to prevent 'em, Lakeside and Forest park citizens propose to begin work at once at their own expense without waiting for the evolution of the general city plan. And after all, that will hasten matters somewhat.

THE AMERICAN STOMACH.

(Grand Rapids Press.)

Dr. Woods Hutchinson says there is nothing the matter with the American stomach. This is reassuring certainly, but it simply bears out the ancient precept that the average stomach will lead a blameless life if only it is treated with respect and consideration. It has often been said that the stomach of a baby is keyed up to a continuous performance, but when a person ceases to be a baby he should cut out the continuous performance feature and adopt a program which calls for meals three times a day.

You may have met the man who will load up on lobster a la Newport, Japanese crab meat, filet de mignon and champagne, and when he gets up in the morning feeling like the fag end of a misspent life, with his head revolving like a motion picture reel and his tongue the size of a Vienna loaf he will straightway lay all the blame on his stomach. The same results can be achieved with fried tripe and beer.

The man who acquires what Mr. Edison terms a "food jag" and then suffers a mild form of indigestion believes that nature has handed him a worn-out stomach. He has to learn that a stomach is only a stomach. It is not a 5,000 horsepower battleship engine nor a mogul locomotive. A man will not overtax the throbbing engine of his automobile. When making a heavy grade he puts it into secondary speed, but he will let his stomach run on "high" every day of the week. He does not expect the impossible from his automobile engine, but he does expect it from his stomach. When his automobile engine fails to pull a heavy load he will make all sorts of logical excuses for it. When his stomach fails he condemns his stomach.

Dr. Hutchinson is right. There is nothing the matter with the American stomach. There is, however, something the matter with a good many Americans who abuse them.

BONDS OVER THE COUNTER.

(Baltimore American.)

A St. Paul department store tried the experiment of offering municipal bonds for sale over its counters along with ribbons, shirtwaists, hairpins, breakfast foods and other things, and the bonds went just like bargain counter stuff. That is to say, they had $55,000 worth of bonds in stock when the sale opened and they had cleared the whole lot out at the end of two hours.

Baltimore has experimented in the matter of offering bonds direct to the pubic with a considerable degree of success. There is no doubt that the small investor is glad of the offered opportunity to obtain a gilt-edge security for his savings, without the red tape procedure involved in the usual process of floating municipal loans. In order to reach the small investor it becomes necessary to cut the issues into smaller denominations. Many who could not buy a $1,000 bond could put up the cash for a $500 certificate. But a municipal or state bond issue cut up into $100 offerings would reach a very much larger class of purchasers.

The direct buying of bonds, other than state or municipal, is hardly to be encouraged, however, for the reason that the way is opened thereby for passing upon the public paper promises that are not what the purchasers suppose them to be. In fact, the bond investor can not be too careful when he goes into the security market. It is generally best to deal through a scrupulous and responsible bank.

REASONABLE EUGENICS.

(Kansas City Times.)

Before persons can be divorced they must be married. Paying more attention to the marriages is preached by many as the best solution of the divorce problem.

In New Jersey a legislative bill will porbably become a law, prohibiting marriage without a medical certificate of good health. The house has passed the bill and the senate is likely to.

There is certainly nothing extreme in such a law. Every parent who is rightly solicitous that the man who marries his daughter shall be able to provide for her, may more rightly and prudently demand that the man shall be physically and morally a fit helpmeet or protector of his daughter.

It is certainly a false modesty that will inquire into the dot, yet take the chance of getting what the French dramatist Brieux has called "damaged goods."

Aged, Wrinkled Faces Easily Rejuvenated

(From The Beauty Seeker.)

An aged face is often only a mask to a comparatively youthful person. Beneath is a countenance young and fair to look upon. Ordinary mercolized wax, to be had at any drug store, gradually absorbs the worn out surface skin; in a week or two the user has the loveliest pinky white complexion imaginable. An ounce of the wax usually is sufficient to complete the transformation. It is put on at night like cold cream and taken off in the morning with warm water.

This remarkable treatment is invariably effective, no matter how muddy, sallow or discolored the complexion. Freckles, moth patches, liver spots, pimples, blackheads and other cutaneous blemishes, naturally vanish with the discarded skin.

To remove wrinkles, here is a recipe that cannot be too highly recommended: Powdered saxolite, 1 oz., dissolved in ½-pint witch hazel. Use as a wash lotion. It acts instantaneously and is wonderfully effective.

DEFERS A CHOICE FOR THREE WEEKS

Kentucky Man Declines the Congressional Committee Chairmanship.

CLINE IS SUGGESTED

Washington, June 3.- Representative Johnson, of Kentucky, after being unanimously elected chairman of the democratic congressional committee last night sprang a surprise by asking unanimous consent to withdraw his name. This was granted and another postponement of election of officers until three weeks hence followed an appeal by Senator James, of Kentucky, for deliberate action.

Opposition to the election of Mr. Johnson, who had been recognized as the leading candidate for the chairmanship, was reported to have been partially responsible for the failure of the committee to reorganize several weeks ago, and there has been talk of a fight against him. However, when he was nominated by Representative Flood, Representative Clark, of Florida, moved that the election be made unanimous and this was done promptly. Representative Johnson then announced that he had other arduous duties to occupy his time, and withdrew.

Cline Is Suggested.

In the discussion that followed Senator Stone, of Missouri, suggested the re-election of Representative Lloyd, of Missouri, as chairman, and Mr. Clark suggested Representative Cline, of Indiana.

Senator James urged that democratic control of the senate and house hinged upon campaign management, the committeemen should take counsel among themselves and with the president, and that meantime definite action be deferred. The committee sustained this view and Representatives Lloyd, of Missouri, and Page, of North Carolina, were temporarily continued in their offices for three weeks.

Nine senators and twenty-five representatives attended the meeting. The committee adopted recommendations of Representative Lloyd to enlarge the committee by increasing its senatorial membership from nine to twenty senators. Mr. Lloyd reported that he and Representative Page, of North Carolina, had conferred with the president, with senators and with the executive committee of the democratic national committee in accordance with the suggestion of national committeemen, "to bring about harmonious action in the coming campaign and to avoid duplication of service as to organization, distribution of literature and collection of funds to meet the expenses of the campaign. He said the president had concurred fully in the plan and approved the action of the democratic senators in naming twenty of their number to carry out the suggestion of having on the congressional committee a senator from each state where there is now a democratic senator and where a senator is to be chosen in 1914.

Mr. Lloyd recommended that the chairman of the reorganized congressional committee appoint a committee of five members to confer with the executive committee of the democratic national committee to make plans for harmonious action.

The New Committee.

The personnel of the new committee as enlarged follows:

Alabama, Senator Johnston, Representative Richardson; Arizona, Senator Smith, Representative Hayden; Arkansas, Senator Clarke, Representative Floyd; California, Representative Raker; Colorado, Senator Thomas, Representative Taylor; Connecticut, Representative Reilly; Delaware, Representative Brockson; Florida, Senator Fletcher, Representative Clark; Georgia, Senator Smith, Representative Lee; Illinois, Senator Lewis, Representative Sabath; Indiana, Senator Shively, Representative Cline; Iowa, Representative Pepper; Kansas, Senator Thompson, Representative Taggart; Kentucky, Senator James, Representative Johnson; Louisiana, Representative Watkins; Maine, Representative McGillicuddy; Maryland, Senator Smith, Representative Covington; Massachusetts, Representative Murray; Michigan, Representative Doremus; Minnesota, Representative Hammond; Mississippi, Representative Candler; Missouri, Senator Stone, Representative Russell; Montana, Representative Evans; Nebraska, Representative Lobeck; New Hampshire, Senator Hollis, Representative Reed; New Jersey, Representative Scully; New Mexico, Representative Ferguson; Nevada, Senator Newlands; New York, Senator O'Gorman, Representative Goldfogle; North Carolina, Senator Overman, Representative Webb; Oklahoma, Senator Gore, Representative Weaver; Ohio, Senator Pomerene, Representative Sharp; Pennsylvania, Representative Diefenderfer; Rhode Island, Representative O'Shaunessy; South Carolina, Senator Smith, Representative Finley; Tennessee, Representative Houston; Texas, Representative Calloway; Virginia, Representative Flood; Oregon, Senator Chamberlain; West Virginia, Representative Brown; Wisconsin, Representative Burke

A UNIQUE DISCOVERY WHICH MAKES A FORTUNE

The wonderful recipe which was discovered almost by accident after experimenting with a digestive vegetable recommended by a celebrated French doctor, has brought for a young English singer (who had suffered for years with indigestion) a fortune, and has led to carloads of this wonderful article being brought before the American public. Every housewife in England has welcomed this wonderful Waw-Waw into her household because it added a delight to her table when used in the cooking, and with soups, salads, hot and cold meats and fish, but at the same time it has had a marvelous digestive effect. Waw-Waw (an obsolete South American word for vegetable) is a purely vegetable sauce and contains no raw spices and is guaranteed absolutely pure. Waw-Waw is entirely unlike all other Sauces, and, although in taste it resembles a Worcestershire, yet the ingredients used are quite different. Half a teaspoonful in a little water before your meals cleans the palate and is a wonderful appetizer. People from all parts of the world have testified to its great merits. It is supplied to the House of Lords and Commons, England, and to the principal hotels throughout the world. A 25-cent bottle from your local grocer will convince you how much more you will enjoy your food and at the same time see how very easily you can digest anything and everything.

Billie Burke's Ideas About Doing Our Share of the World's Work—Man Holds Himself Upright.

By Billie Burke.

A friend of mine who knows my theory in regard to the relation of the physical to the mental spiritual man sent me recently an article of Dr. Evans' where he said: "Man holds himself upright as the result of the call to higher things. His instinct would make him slouch and slump. The spirit in him calls on him to toe, to stand straight and square, to hold his head up and his chin in and to look straight to the front. The animal in him, the great instinct that has come down in his germ plasm through the ages bids him to slouch. When the best of him is dominating he stands four square. When he is worn by sickness or by age he stoops."

Darwin says: "He who gives way to violent gestures will increase his rage. He who does not control signs of fear will experience fear in a greater degree, and he who remains passive when overwhelmed with grief loses his best chance of recovering elasticity of mind." Mere physical exertion has great influence on the mind.

When we walk right and carry our heads high it is a sure sign that we are doing our share of the world's work that we are developing mentally.

I would never ask help of anyone who slouches.

When strength, vitality, elasticity are gone the gait is a shambling amble. The enfeebled person drags, slops along.

When a woman will understand that the upright carriage and posture have been the greatest developer of the human race she will give the present fashion of stooping the go by. She will begin to throw her shoulders back and her abdomen in, walk with her head up and be mental instead of vascular.

"The upright posture has made it possible for the human race to develop a thumb and a prehensile hand; to develop arms that work better when working singly; to develop a flat chest; to storm; to facteria; to artificial conditions of living, unapproached by any other animal; to develop a brain that puts man in a class by himself," says Dr. Evans.

Today's Beauty Recipes

By Mme. D'Mille.

"Now comes the time of year most trying to the complexion. Perspiration makes the ordinary face powder look smeary and untidy. A splendid face lotion that is used in place of powder can be made easily at home by dissolving an original package of mayatone in a half pint of witch hazel. Mayatone keeps the skin smooth, clear and satiny, and gives you a complexion of lilies and roses. It prevents freckles, tan and sunburn.

"Dandruff is the worst enemy of healthy hair. It attacks the roots and causes the hair to become dull, brittle and faded, and finally to fall out. Mother's Shampoo will remove dandruff and leave the scalp perfectly clean and healthy. Its use makes the hair strong, lustrous and fluffy.

"Summer toilettes seem to make superfluous hair on face or forearms more noticeable. A safe, speedy and sure hair remover can be made by mixing a little powdered delatone with sufficient water to form a paste. Cover the hairy surface with this paste, leave on for two minutes, wipe off, wash the skin and the hairs will be gone."

AT THE EMPRESS

Frances Clare and Guy Rawson, with a chorus of eight beauties, head this week's bill at the Empress theater in a delightful skit of the musical comedy order, known to the vaudeville circuit as "Just Kids." Do you ever feel sometimes like you would enjoy being a kid again? We've all been kids and it is safe to say that most of we grown-ups frequently recall incidents of the kid days, the games of hide-and-seek, the birthday parties and other events of utmost interest to kiddies, but the memories of those kidhood episodes are rarely brought to mind with as much true-to-nature spirit as is manifested in the antics of Miss Clare and her friends. Big grown-up men and women join with the little children in hearty laughter and witness with whole-souled enjoyment the skits of Mary and Willie. It makes one wonder after studying the audiences of this week if most of those present wouldn't like to join in the games and be a kid again, for the time. The act introduces a number of new songs and contains several surprise numbers, and next Saturday at the close of the second matinee, Miss Clare will hold a reception on the stage and the entire company will join in the games with the little visitors.

Sharp and Flatt, the two German comedians, are really musicians and before they leave the stage they prove it, but you wait a long time to find out whether they can play or not. They have a supply of good jokes. Harry Booker and James F. Duffy have an Irish offering entitled "The Walking Delegate," and succeed in keeping the audience in hilarious mood for fifteen minutes by their clever comedy. The Bimbos give a lot of thrills in their acrobatic presentation but always manage to escape serious injury, to the relief of the female spectators.

The two little Watson girls whose recent participation in the contest held for semi-professionals won them a place on the regular bill at the playhouse this week in their songs and dances of nations are making good. The children are very clever and appear to be at perfect ease at all times.

THE CAGED BIRD.

Her Fairy God-Father and Life Among the Navajos—At Lyric Today.

The Lyric presents today a Thanhouser, "The Caged Bird," an educational, "Life Among the Navajos," and a Majestic, "Her Fairy God-Father. In "The Caged Bird," a princess flees from the formality an ceremony that totally envelops her. This is an artistic adventure story. On Wednesday the Reliance will offer a two-reel drama, "The Master Cracksman."

The story of "Her Fairy God-Father" is as follows: She was a good enough cook, as cooks go, but the trouble was that her heart was not in her work. The master of the house complained bitterly that when she should have been studying how to make chicken a la Maryland, she was wasting her time reading sensational novels or flirting with a policeman.

Under the circumstances her employers felt justified in refusing to grant her favors, so when she asked permission to attend a picnic nearby they did not hem and haw about the matter, but told her frankly that she could not go, then to make her perfectly happy, they went themselves. The girl had her revenge, however, for she found that although she could not attend in person, she could attend in spirit. For she had a delightful dream in which, as she explained afterwards, she made "the queen of the May look like the second cook in a poor house." It was all the work of her fairy god-father, whom she found to be a spirit every bit as effective as a fairy god-mother. He wore a blue uniform, it is true, and instead of a wand used a club for his incantations, but he got results, and what more could be asked?

Yes, the girl is very fond of her fairy god-father, and she hopes the civil service board will make him a police captain some day.

AT THE JEFFERSON

The offering at the Jefferson is a three reel Bison entitled "The Battle of San Juan Hill." This picture is full of interest and some excellent battle scenes are introduced. May Del May, a clever little dancer, was a hit Monday. She introduces three kinds of dancing—waltz, clog, buck and rope skipping. Dick Hartzler has a splendid song and scores as usual. Wednesday comes "Why?" a picture of the masses depicting child labor and other abuses. This is the supreme dramatic effort of the year. The labor question powerfully presented. On Friday night an extra attraction is Fort Wayne's tiniest dancer, Little Celia Porsch, a pupil of Miss Hanker. The little lady will make her first public appearance at the Jefferson Friday night.

Every sale here, big or little, must give entire satisfaction to our customers; if it doesn't, we want to refund the money and want to do it promptly.

PULL FOR YOUNG TO BEAT DAYTON

Compton Slated to Stop the Fort Wayne Crew of Sluggers.

LOUDERMILK WON OUT

Dayton, O., June 3.—Grover Young was next in turn to pitch for the battling Billikens and the whole Fort Wayne team went to the ball park today pulling hard for him to duplicate the performance of "Louie" Loudermilk, who treated the Vets to the first coating of whitewash they have had this season by earning a 9 to 0 victory in the second game of the series.

This man Young, according to the stories told by his pards, has been pitching great ball all season but has had a line of hard luck passed to him that has prevented him from taking away the victories his good slab work merited, and his supporters believe that when he once breaks this losing streak he will show the way in the organization.

Jakie Fromholtz was the victim in the washday tilt, and thirteen safe drives, of which two were doubles, represented the stick work of the Fort Wayne crew. Fabrique's waiting in the first was rewarded by a pass and after Warren had failed to bunt on two attempts he tipped a hit and run signal and hit the ball so hard at Johnny Nee that the youthful manager barely knocked it down and had no chance to field the ball.

Keener got the second walk of the inning and with the bases full Tutweiler popped to the manager but Anderson slammed the ball to right for a base and scored Warren and Fabrique. Harry Martin forced Keener at the plate and Burke was thrown out at first.

Erve Martin bobbled on Frank Nespo's offering at the opening of the second and Loudermilk beat out a bunt. Fabrique followed suit and Warren forced Nespo at the plate, leaving the bases full. Keener kicked in with a single to right that scored Loudermilk and Fabrique and Tutweiler's hit allowed Warren to count.

Two more runs went over on Anderson's rattling double down the left foul line. Anderson scored Keener in the fourth with a sacrifice fly after the big right fielder had hit and taken third on Tutweiler's rap. Nespo registered the ninth run of the battle. After he had forced Burke he made second while the manager was being run down between second and third, and counted on Loudermilk's drive. The score:

BOSTON MAGNATE SEEKING HURLER

May Be Ready to Change His Mind About One Earl Mosely.

SCOUT IS AFTER HIM

Youngstown, O., June 3.—Is Jimmy McAleer, president of the Boston Americans, planning to purchase Pitcher Earl Victor Mosely, the Alliance lad, to bolster his club, which has been showing only mediocre form of late? Is the Red Sox magnate maneuvering to renig on his judgment of the ability of the youngster he tried out in Hot Springs and billed back to the minors for more seasoning? Perhaps not, but if not, why is Scout Farrell, of the Red Sox, following the Steelmen around the circuit, exhibiting little or no interest in the games only when Mosely is on the mound? There's a reason.

Scout Farrell has been constantly on the trail of the Steelmen for the past week. When Mosely is in the box Farrell watches the game intently. He takes notes. He refuses to remove his gaze from Youngstown's star flinger. He also refuses to divulge the nature of his visit here. There is something doing and it is bound to come out within a few days.

Magnate Powers was asked concerning the Farrell visit. The local owner declared with emphasis that he did not know Farrell's mission, and then he changed the subject and thus evaded further questioning. Would it be possible for a scout to follow the Steelmen very long before Powers knew what was on the boards?

Don't Blame Powers.

Powers cannot be blamed for trying to maintain silence. Perhaps he don't know but his actions would indicate that he has a very keen suspicion. Suspicion cannot always be hidden, and in this case the above survey seems to fit like a glove.

McAleer and Powers have a brotherly love for one another. This has been manifested in many ways. The Boston outfit needs help in the pitching department and they need it badly. The situation is interesting, to say the least, and it would not be surprising if some announcement is made concerning it before many days.

Manager Blount pleaded ignorance of the supposed deal when questioned. Members of the club also refused to divulge any facts that they might have. No one seemed to know what Farrell was doing.

Maybe Farrell has been taking notes on Mosely. Perhaps he has not as yet talked to Powers concerning his visit. Maybe Powers, filled with pleasant anticipation, prefers not to chance having his feelings jolted by asking questions. He probably knows who Farrell is. He did not say he did, but the supposition seems not incorrect, that no individual would be permitted to trail the club without the owner learning whether he was a dynamiter, a sheriff or detective.

These baseball deals are operated on a plan entirely original with the pastime. Everyone is afraid the other fellow is going to put one over. It may be good business. It may justify the action, but thetruth will out. Where there is smoke there is bound to be fire. Magnate Powers will no doubt announce it, if it goes through.

ANDERSON AFTER NEW MEN.

(Terre Haute Star.)

"Goat" Anderson is determined to produce a championship organization. It was stated last night on good authority that lines are out now for Pitcher Ryan, a White Sox recruit, and for Outfielder Graham, a .300 hitter, traveling with the Danville Three-I team. Either or both of these men may report at any time. If they make good, according to the dope, two players, now Terriers, will have to go. Graham is expected to play in Anderson's place, while the little man at Fort Wayne keeps the local leader out of the game.

MEETING NEXT SUNDAY.

Athletic Association Succeeds in Engaging the Driving Park.

An organization that had the driving park engaged for next Sunday has given way to the Fort Wayne Amateur Athletic association and the track and field meet postponed from last Sunday will be staged. This was decided upon at a meeting held last night at the Friar club rooms.

MAY TRY ANOTHER CUBAN.

Philadelphia, June 3.—A Cuban southpaw pitcher is likely to be given a trial by Manager Griffith next spring, on the recommendation of Joe Massaguer, who is responsible for the presence of Jacinto Calvo with the team. Oscar Fernandez, 19 years old, six feet tall, and wiry, is the youth who may join the squad. Both Calvo and Acosta speak well of him.

BLUES LOOKING FOR GAMES.

The Cathedral Blues are looking for games and want to engage with teams having players from 12 to 13 years of age. Address 1202 Webster street.

SCOUTS WILL GATHER AT MOOSE JAW TO WATCH THE PERFORMANCES OF THIS PAIR OF PITCHERS.

RUSS ELL NORTHROP AND BOB STEELE.

Pitching a no-hit-no-run game is the ambition of every pitcher in baseball. Few have achieved the honor, and that two youngsters on one team should break into the exclusive class within four days is but one of the remarkable things that make baseball.

Bob Steele and Russell Northup, of the Moose Jaw Robinhoods, Western Canada league, are the youngsters who have thus achieved fame.

The "Twilight league" isn't a class A organization, but a pretty good article of ball is played by the teams. At Medicine Hat May 16 Northup held the Hatters to a hitless, runless game for nine full innings, and at Calgary May 29 Steele duplicated the performance.

Northup hails from Des Moines, Iowa, and this is his first year in organized baseball. He was tried out and released by Des Moines this spring. Vancouver, of the Northwestern league, took him and let him go to Moose Jaw, where he rounded into form and is one of the league sensations.

Steele is a Canadian, his home being in Victoria, B. C. That team tried out Steele, but had a good left-hander and decided that Steele, who is but 19, wouldn't do, so he was sent to the Moose Jaw team, and hasn't lost a game since the season started.

WHELLS HIMSELF SIXTY MILES.

Man in Invalid Chair, Minus Four Inches of Spine, in Amazing Feat.

Atlantic City, N. J., June 3.—James Tourish, who has lost four inches of his spinal column, has arrived here after wheeling his invalid chair from Philadelphia, a distance of sixty miles. It took him three days to make the trip. He was accompanied by two friends, but he propelled the chair with his hands. He was in much fresher condition than his friends, who walked.

Tourish left Philadelphia on Friday evening. He had told friends it would be no hardship to him to wheel himself to this city. They ridiculed the idea and he started on the trip.

The invalid suffered the injury two years ago in a fall from a roof. To save his life it was necessary to remove part of his spine.

CENTRAL LEAGUE IS BALANCED UP

Not Much Danger of Any Club Running Away in the Race.

JIMMY BURKE TALKS

Dayton, O., June 3.—Manager Jimmy Burke, of the Fort Wayne team, and Johnny Nee, commander of the Vets, both opine that the Central league is too well balanced for any club to make a runaway race, and that there will be no long list of victories credited to any during the present season.

In a discussion of the race during the stay of the Fort Wayne team here Burke talked and Nee indorsed everything he said about the clubs that form the half-dozen circuit. "There is not a weak club in the league since Terre Haute and Evansville have strengthened up," said Burke.

"Springfield's team looks like the weakest in the circuit to me. Stanley's club is having lots of luck now, but when the breaks start going against them the Reapers will toboggan right. We have had a lot of tough luck, and it will be a month yet before I get my ball club together again. It may be longer, but the best I can hope is that none of the others will get hurt while Jansen and McLafferty are out. I don't expect either to play for at least a month.

"Punch Knoll has been having a hard row to hoe with a fresh cripple most every day, but his team is coming around now and should make a lot of trouble from now on. Anderson needed new ball players to make his team win. He got them, and now has a club worth the name. You can't count Terre Haute out, not as long as Gilbert keeps his strength, at least. The Grand Rapids club is a peach. Smith and Essick haven't had any bad luck to speak of in the way of cripples, but you've got to hand it to those boys for putting out their money to improve what was already a good ball club. They have bought Infielder Mathews from Denver, Pitcher Riley from Kansas City and Catcher McGraw from Topeka sincet the season opened, and each displaced a pretty good man. The way they are drawing shows they have made no mistake in getting together the strongest club possible.

"This Dayton club looks good to me. Give the Vets the right kind of pitching and they will be mighty hard for any club to beat. Taken all around, the league is the best balanced organization I've laid eyes on for a long time. I expect the race to continue just about as even as it is at present, and I don't for the life of me see how any team is going to win over seven or eight in a row, because any team is dangerous and can't be beaten every day for any great length of time. The rest of the clubs will have to be badly crippled to enable any one team to establish a record for straight victories."

Burke is such a rapid talker when he gets going that about all Johnny Nee could do was listen when the Fort Wayne Irishman turned loose, but he said "Amen" to everything his rival said. Both agree that Springfield's team is the weakest in the league, but both are glad to see Joe Stanley getting the breaks now. Nee considers Burke's team the best in the league, but that doesn't hold good now with Jansen and McLafferty nursing bad legs that will keep them on crutches for several weeks.

Charles Knight, of Randolph street, has returned from Forest, O., where he spent a few days with his uncle, Samuel Weikard.

NEW OUTFIELDER CAN BE SECURED

If Warren is Satisfied and Burke Likes Him He Will Stay.

OWNER IS IN THE CITY

Owner Claude H. Varnell has had an outfielder still on the roster of one of the big league clubs offered to him and feels sure he can make good, and unless Jack Warren, who joined the club at Dayton Sunday, is satisfied with the club, and Jimmy Burke thinks he will do, the new man will be sent back to the Cleveland club and the other man purchased.

Warren refused to sign at the salary offered him but it was all the club could afford to pay and he finally agreed to accept it and it is big enough for a man who failed to make class AA, and who has been injured and out of the game, and who is an unknown quantity in class B ball.

Mr. Varnell came in from Chicago last night, and while he is here he will make preparations for the flag raising which is scheduled for Tuesday, June 9, when the locals will oppose Dayton at the Fort Wayne park. The ceremonies postponed from the opening day on account of the illness of Mrs. Burke will be held then.

The owner had heard nothing from either Mark McLafferty or Ray Jansen, of his hospital squad, and does not know when they will be able to play, but does not believe that either will be on hand for a month. McLafferty said he thought he would be able to join the club when it returns from the present trip.

The best story he had was that Manager Anderson, of Terre Haute, tried to trade him Charley Pick for Tommy Atkins. This happened the night before Pick and his boss had the row on the bench the day the club played its last game here. He didn't consider the trade for a minute but it is evident that the manager and the man he afterward engaged in a fist fight with were not on very good terms.

WHISK BROOM FOUND METROPOLITAN AN EASY RACE TO WIN.

Whisk Broom found the winning of the Metropolitan an easy task. Ridden masterfully by little Joe Notter, after being left flat footed at the post, Whisk Broom won with some to spare.

The "after" story of the race is a tribute to Joe Notter as a race rider. The starter left Whisk Broom standing as the horses got away and when the horse got into his stride he had to do some running to catch up.

Notter's exhibition consisted of sneaking through on the rail and risking a broken leg as he scraped the rail. He had the race well in hand at the head of the stretch and won by lengths.

SCHOOL PATRONS URGE IMPROVEMENT

Set Forth Lack of Proper Facilities at McCulloch Building.

PETITION THE BOARD

Parents whose children are pupils at the McCulloch school met Monday night at the old building and adopted a petition which is to be presented to the board of public education, asking for more sanitary toilet facilities and compliance with the heating and ventilating specifications as set forth in the state law. J. N. Study, superintendent of the city schools, declared that the board would give the petition its earnest consideration, but added that there is not enough money on hand to carry out all the improvements desired.

Dr. E. A. Crull, secretary of the city board of health, attended the meeting and said that there is no question about the unsanitary condition of the school. He said the health of the children is of greater importance than education, and urged the patrons to get busy and demand the much needed improvements.

Mr. Study said that every building which has been replaced since he came here was older than the McCulloch school. He said that some new buildings have been erected since then in new districts but that it was necessary to build new schools on account of the enormous increase in the city's school population.

Mute evidence of the deplorable condition was shown by a common oil lantern hung in the office of the building, showing what is done on dark days. There are no lighting facilities in the building.

The petition which was largely signed last night, says that the district lacks many of the advantages that other parts of the city enjoy; there is no kindergarten, no German, no gymnasium, no toilet facilities or proper ventilating devices. The document also says that the district has grown ten times in population since the building was first occupied twenty-six years ago, and that the crowded condition of the rooms is a menace to the health of the pupils.

Professor A. Dorn, George A. McKee, Bert Roberts, George Herman, George Gable and George G. Rombke, were appointed as a committee to present the petition to the board of education.

Others who spoke were Miss Calmerton, supervisor of the primary department in the city schools; Mrs. Simon Ackerman, of the Fort Wayne Mother's club; George Herman and Peter A. Braun. The latter is city councilman from the Eighth ward.

TO HAVE SOCIAL SESSION.

Merchants' Association Holds Meeting At Commercial Club.

Members of the Fort Wayne Retail Merchants' association, in regular session Monday night at the Commercial club decided to make their meetings of more interest in a social way, and the entertainment committee was instructed to map out a program for the coming year, selecting a list of speakers and assigning them their dates and topics. To carry out this plan it is believed more money will be needed, and a special committee on finance is to take up the matter of increasing the initiation fee and dues of the association.

L. J. Libbing, chairman of a special committee to call on the board of safety for the purpose of ascertaining why the ordinance against sidewalk obstruction had been enforced only on Main street, reported that the board had excepted Columbia street because it is a wholesale district. He scaid the board promises to enforce the ordinance on all other business thoroughfares. Mr. Libbing also reported that the board of works had promised to flush the business streets twice each week, but at this date had not done so.

In a letter to Secretary H. F. Kennerk, President Ralph Clark, of the state association of retailers, says he is about to inaugurate a membership campaign.

SAYS FUNDS RAN SHORT.

Belated Bills Wiped Out Flood Relief Balance and Curbed Work.

Some fifteen persons who were scheduled to receive cash assistance in the closing up of the flood relief work in Fort Wayne, and whose names appeared in the report as recipients, were compelled to do without it on account of belated bills for furniture, clothing, fuel and food supplies already furnished which completely wiped out the cash balance, according to the statement of relief committee officials.

This was elicited after Mrs. D. J. Lynch, 1008 St. Marys avenue, had called the attention of The Sentinel to the fact that her husband had not received the $25 with which he was listed in the published report. It is explained by Trustee Branning that when the belated bills for supplies arrived after the reports had been sent out, the committee decided it must meet them, and this made impossible the extending of cash aid to the fifteen additional families whom it had been hoped to aid.

A WORKER APPRECIATES THIS

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills, and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills." Foley Kidney Pills do not contain habit forming drugs and are tonic in acting, quick in results. They will help any case of kidney trouble not beyond the reach of medicine. Dreier Drug Co.

FIRST ANNUAL REUNION.

Fort Wayne Grays To Hold Meeting At Old Armory on Broadway.

A call has been issued to all former members of the Fort Wayne Grays, a military organization, to attend a meeting this evening to be held in the old armory, corner of Broadway and Jefferson streets, at which time arrangements will be completed for the first annual reunion of the company. The reunion will be in the nature of a field day and will be held Sunday, June 15.

NO SUBSTITUTE COULD DO THIS

No inferior substitute, but only the genuine Foley Kidney Pills could have rid J. F. Wallich, Bartlett, Nebr., of his kidney trouble. He says: "I was bothered with backache, and the pain would run up to the back of my head, and I had spells of dizziness. I took Foley Kidney Pills and they did the work and I am now entirely rid of kidney trouble. My father-in-law, now past 93 years, has taken them and they have added years to his life." This same committee is to meet within a few days with officials of the Fort Wayne & Northern Indiana Traction company for the purpose of discussing street car extension across Delta lake.

TO ATTEND MEETING.

CAUGHT BY THE DEADWOODS

Brakeman Wagner Severely Injured While Trying to Couple Cars.

WORK ON DEPOT TO RESUME FRIDAY

Long Over Due Building Material Will Arrive Thursday.

H. R. Wagner, of 2344 Gay street, a Pennsylvania brakeman on the Warsaw work train, was brought to the city at noon today and taken to the St Joseph hospital, suffering from injuries sustained at 7:30 o'clock this morning at Hamlet, Ind. He was endeavoring to couple some cars at a siding connection with the main line, and when the coupler failed to work on the first trial, he stepped between the cars and was caught by the deadwoods and squeezed at the waist when the disconnected car moved forward. He was attended by a surgeon at Hamlet, who found that no bones were broken, and later placed on train No. 40 and brought to this city. It is believed that, while Mr. Wagner's wounds are painful, they are not serious. He was a member of Conductor W. Cox's crew and was engaged in helping to distribute rails for renewing the tracks at that point. Mr. Wagner is married.

MEET IN BELLEVUE.

Nickel Plate Vets Hold Convention There.

The official announcement and the program for the seventh annual reunion of the Veteran Association of the Nickel Plate Railroad is being sent out to members of the association. Enclosed in the envelope with the announcement card and the program is a handsome white silk badge, bearing the emblem and the name of the association and the date and place of holding the reunion. The announcement gives the names of the hotels and restaurants where veterans will find good accommodations and the names of club rooms that will be thrown open to the veterans. These include the Y. M. C. A. rooms, the Masonic club room, Elks' club, Eagles' club, Knights of Columbus club, B. L. E., O. R. C. and B. R. T. halls. The banquet, which is the chief feature of the day, will be held in the Coliseum, beginning at 6:30 o'clock. For the accommodation of the vets at Chicago, Fort Wayne and intermediate places, there will be two extra sleeping cars on train No. 6, which will arrive at Bellevue at 8:15 in the morning and returning these cars will be attached to No. 5. Immediately following the arrival of the vets at Bellevue will be an automobile ride, which will consume three hours and include a visit to the famous Blue Hole, near Castaria, reaching Bellevue on the return at 12:30 o'clock, in ample time to allow the members to get dinner before the opening of the business session in the Y. M. C. A. rooms at 1:30 o'clock. At 3:30 o'clock the vets will witness a ball game between teams composed of the Bellevue office force and clerks from the Cleveland and Conneaut offices.

RESUME WORK FRIDAY.

Delayed Material For New Depot Will Reach Here Thursday.

The local Pennsylvania maintenance of way officials have been advised that the terra cotta stone so long overdue will reach Fort Wayne Thursday night. Following its arrival work of building the new passenger station on Baker street will be resumed and pushed along with all possible speed. This work is being done by the George B. Swift company, of Chicago, while the subway and other work is being performed under the supervision of the Pennsylvania engineering department. The latter will increase the force at Harrison street, pushing work on the excavation for the baggage and the passenger subways so as to have it finished before the station building is completed. The entire station will be finished and occupied before snow flies.

BOTH WRISTS SPRAINED.

Herbert C. Scherer Thrown From His Motorcycle.

Herbert C. Scherer, of 1232 Oak street, had both wrists badly sprained and sustained some painful bruises on the limbs and body Thursday afternoon when he was thrown off his motorcycle near Bluffton. He was en route to Indianapolis to attend the races and tried to pass a rapidly moving automobile when the wheels struck a rut and he was thrown in the ditch. He went to a farm house, where he was attended by a surgeon from Bluffton and no report of the accident was received at the Pennsylvania shop clerk's office, where the young man is employed, until yesterday afternoon. He is now at his father's home on Oak street.

SURPRISED AT CITY'S GROWTH.

"Fort Wayne has made a wonderful improvement since my last visit here," said B. F. Hayes, of Kingsville, Texas, this morning. "During the past twenty years I have been in many cities, but none presented evidence of the rapid and substantial growth that I find here." Mr. Hayes is a railway conductor and for the past fifteen years has been employed on the New Orleans, Texas & Mexico road. Prior to 1892 he was employed as a conductor on the Wabash and during his service with that company resided in Fort Wayne and ran between this city and Lafayette until the division was transferred to Andrews. He then moved to that place and ran trains until 1892, when he quit to go to Texas. Mr. Hayes is stopping with Engineer W. H. Gates, who is his brother-in-law. He expects to leave for Texas the latter part of this week.

CONVENTION CLOSES TODAY.

The Brotherhood of Railway Trainmen will close the most interesting and profitable conventions of its history next Friday and C. F. Fissel, who represents Fort Wayne lodge, No. 136, will start for home early next week. He has kept the local B. R. T. men well informed of the doings at the convention hall by sending them San Francisco papers containing full accounts of the proceedings. Among the important features of the convention was the raising of the life policies from $1,500 to $1,600 and fixing the period of maturity at the seventieth birthday of the holder, when he will receive the full face of the policy. During the period between the holding of the last convention and the present convention, $8,000,000 was handled by the treasurer and $2,500,000 was distributed in aid.

CLEARED OVER $100.

When all the bills had been settled and an accounting of the ticket sales rendered Fort Wayne lodge, No. 436, Ladies' Auxiliary to the Brotherhood of Railway Trainmen's treasury had over $100 additional cash on hand as a result of the first annual ball, given early in May. The ball was not given at a very opportune time, either, for it followed close the big annual fair of the B. R. T. and was also more or less affected in a financial way by the recent floods. The auxiliary is giving a series of socials and pedro parties, which are also proving very pleasant and successful. One will be given this evening at the home of Mrs. Frances New, 2503 Lillie street, and she will be assisted by the Misses May Smith and Adelia Roebel and Mrs. DeVilbiss and Mrs. Rouch.

CRANE OPERATORS TRANSFERRED.

The promotion of A. M. Schele from crane operator in the Pennsylvania erecting shops, where he worked six years, to the position of lineman in the power department has been followed by a general shift of crane operators, each change being a promotion. Max Hoefler, who had charge of one of the machine shop cranes, succeeded Mr. Schele. L. G. Dunifon was transferred to the crane vacated by Mr. Hoefler and N. G. Markey, of the power plant, was transferred to the machine shop crane to take the place formerly held by Mr. Dunifon.

AUDITORS CHECKING UP WABASH.

A. M. Legg, senior traveling accountant of the Wabash, and W. H. Jameson, traveling auditor of the Cincinnati, Hamilton and Dayton, were here today on business with the ticket department of the Wabash. Mr. Legg has been with the Wabash many years and several years ago made frequent business visits to Fort Wayne. He is well known to all of the local officials and office men.

COMPLETING ENGINE ORDER.

The foundry and forge department of the Bass works has completed their work upon three 1,600-horse power engines and the castings and forgings are now in the machine shop and are rapidly being dressed and adjusted. One of the engines will leave the works this week and the other two will follow inside of two weeks. These engines will be part of the power plant for a big tin mill that is to be installed at York, O.

SPENDING VACATION IN EAST.

Ed Kochn, foreman of one of the departments of the Pennsylvania shops, and his son Marvin are east on a ten days' visit and sight-seeing tour. Marvin is a student in Concordia college. During the absence of Mr. Kochn the duties of his office are being looked after by Machinist C. W. Grosvenor.

HAD FINGER NAIL STRIPPED OFF.

W. G. Dressel, machinist's helper in the Pennsylvania shops, had the nail torn from the fourth finger of his right hand this morning. He was handling some steam pipes when one of them got beyond control and fell upon the digit. Dr. Stemen attended him.

AUXILIARY PEDRO PARTY.

Anthony Helpmeets, No. 224, Ladies Society of the Brotherhood of Locomotive Firemen and Engineers, will give a pedro party tomorrow afternoon at the engineers' hall, corner of Cherry and Main streets.

A. Pasick, of the Pennsylvania car shop, had the index finger of his left hand badly cut this morning while at work in the shop. Dr. C. B. Stemen attended him.

The Nickel Plate today commenced building tracks of fifty car capacity to the site of the elevator to be built for the Fostoria Grain company. The company purchased five acres of land adjoining the tracks of the railroad.

Peter Williams and his niece, Miss Isabel Deitschel, will leave tonight for Massillon, O., where they will attend the wedding of a relative tomorrow. Miss Deitschel will be the bride's maid. Mr. Williams is a Pennsylvania shopman.

William H. Shorey, district passenger agent of the Wabash, is attending a meeting of passenger agents at St. Louis today. It was called by General Passenger Agent J. B. McNamara for the purpose of discussing summer excursions.

Charles A. Schaeffer, the signal maintainer, who fell from a signal bridge on the Pennsylvania March 19, and was badly injured, has recovered and resumed work yesterday. For awhile after the accident it was feared he would not be able to resume work for many months.

Charles A. Rulo, inspector of material for the Fort Wayne Electric works, is performing that duty again after a week's lay off, during which he was subjected to Mrs. Rulo's orders in moving the furniture, putting down carpets and otherwise making their new home habitable.

Ora E. Maxwell, assistant road foreman of engines of the Pennsylvania, returned home at noon today. He made a trip with the first trains to run between Toledo and Chicago over the new Pennsylvania-Vandalia route. They were well filled with passengers and Mr. Maxwell believes the line will do a good business.

Machinist A. M. Ringle, of the Pennsylvania shops, will officiate as umpire for the Trolley league for the first time next Sunday. The Sentinel mentioned his appointment to that position a week ago. The teams in the Trolley league are located at Kendallville, Monroeville, Auburn, Columbia City, Hicksville and Fort Wayne, the latter being the famous Shamrocks. Mr. Ringle was manager of the Pennsylvania shop league team the three years that club won the pennant.

PASTOR FAINTS IN HIS PULPIT

Rev. S. A. Northrop, Former Fort Wayne Clergyman, is Stricken.

SUFFERS A COLLAPSE

Kansas City, Mo., June 3.—The Rev. Stephen A. Northrop, D. D., pastor of the Temple Baptist church on the Kansas side and former pastor of the First Baptist church in this city, suffered a nervous breakdown while delivering his sermon Sunday morning. He will go to Michigan today on a three months' leave of absence.

Mr. Northrop has been suffering from nervous trouble brought on by his efforts to complete the new church building. Toward the close of his sermon yesterday morning his voice became faint and he sank to the floor. Physicians in the congregation attended him in his study. He was suffering from heat, they said, brought on by nervousness.

The congregation at once held a meeting and voted to give the minister a leave of absence.

Mr. Northrop was one of the best known ministers in Kansas City when he resigned the pastorate of the First Baptist church in January, 1906, to accept a call from Los Angeles. Three years ago he returned, accepting the call to the church on the Kansas side. He began the erection of a handsome building at Tenth street and Tauromee boulevard.

Rev. Mr. Northrop was formerly pastor of the First Baptist church in Fort Wayne, and has many friends in this city.

Chicago Market.

The close was firm, with July ⅝c net higher at 91⅛@91¼c.

The close was steady at 58⅜c for July, an advance of 1⅛@1¼c net.
Oats weakened under selling by a big elevator concern. July, after starting at 38¾@38⅞c to 38⅞c, touched 39c and later sagged to 38⅝c.

Following yesterday's severe slump the market presented a most cheerful front today. Commission houses reported a better investment although buying of this description was not heavy. Cables from abroad indicated better conditions there. London bought extensively of Canadian Pacific and also took some Union Pacific. Canadian Pacific rallied five points, but other standard stocks did not average more than a point. Bonds were easy.
The market closed weak. Failure of dividend paying stocks to resist the intermittent pressure of the bear faction cause renewed liquidation.

NEVER AGAIN A QUORUM.

Old Settlers at St. Paul Facing a Melancholy Situation.

St. Paul, Minn., June 3.—"We are face to face with the melancholy fact that death has so depleted our ranks that never again will we have a quorum or be able legally to transact business," said E. W. Durant, president of the fifty-sixth annual reunion of the Old Settlers' association which was held here today. Five men, representing the last of Minnesotas' first white citizens, attended the meeting of the association which was formed in 1850.
"We can only wait for the end when the last man will answer the summons that forever extinguishes our association," Mr. Durant continued.

MAN WAITS 25 YEARS FOR PAY.

Lilly Resident, Victim of Johnstown Flood, to Recover Damages.

Johnstown, Pa., June 3.—After almost twenty-five years, W. C. Wolfe of Lilly, Cambria county, has received assurances that he will recover $2,500 with interest, for a house destroyed by representatives of the state board of health following the Johnstown flood of May 31, 1889. Wolfe had a special bill enacted by the legislature in 1901. He obtained judgment against the state and Governor Tener just signed a $2,500 bill to pay it. Wolfe owned a house in Johnstown and the flood moved it from its foundations. State representatives demolished it, whereas he claimed the building could have been replaced on its foundations with little expense.

Real Estate Facts

Our eighteen years' experience in helping our friends and clients in buying realty and insurance at the right prices and rates will not be a disadvantage to you. Many are making money by investing through us. You can imitate them by consulting the managers of our different departments and buying of us. We always have bargains extraordinary in business blocks, city homes, lots, suburban tracts and farms in Allen county, and especially in the Maumee valley east of Fort Wayne. You cannot afford to be your own agent, as we can buy what you want at the lowest possible cost. Well meaning, highly educated people often make great mistakes by going direct to the owners of the property they want, and thereby pay more than it would be necessary to pay for the same property had they dealt with an agent. Have you learned that the poorest way to get property cheap is to let the owner know that you want it? Do you wish to locate on the gulf coast? Do you desire North Dakota, Minnesota or Canada land? Would you like to locate in Oklahoma? We have lands in all of the above locations. Get a catalogue at our office. Tell us where you wish to go and we will do the rest. Why Beri (French) Olive Oil is Superior

Because it is pressed from olives grown near Nice, France, known as the finest olive producing country in the world.

Because Beri Olive Oil is the product of "the first pressing" and that means the sweetest and purest of oils. There are usually three pressings, giving three different grades of oil. Only the first and best pressing is used in Beri.

Beri Olive Oil is not as thick and fatty as Italian oils and therefore does not get rancid.

In bottles Beri Olive Oil sells for 25, 45 and 85 cents.

In tins, for 55 cents, $1.00, $1.80 and $3.50.

Use Beri in your next salad dressing and note the goodness it imparts.

CITIZENS FIND HEETER GUILTY

Former Indiana School Man is Entitled to Hearing Before Board.

SEEMS TO BE IN BAD

Pittsburgh, Pa., June 3. S. L. Heeter, superintendent of the Pittsburgh public schools, was found guilty of charges of immorality in the repore of the committee of six citizens, who investigated the school head. The committee's report was presented to the board of public education yesterday afternoon at a public hearing. Since Friday it had been in the possession of David B. Oliver, president of the board. He had kept it sealed and opened it for the first time at the board meeting yesterday.

The committee found that Mr. Heeter was guilty of making "improper advances and taking unwarranted liberties" with Mrs. W., a former stenographer in his employ; Mrs. X, a teacher in the public schools, and Miss Y, a former domestic in his home. The three women were designated in the report by the above letters. Their names are given in a letter accompanying the report, but which the board will not make public.

Oppose Hasty Action.

An effort was made immediately after the report was read by William Leoffler, a member of the board, to take steps to remove Mr. Heeter. Such hasty action, however, was opposed by other members of the board, and Mr. Heeter is to be given still another chance for vindication. Under the school code the school head is entitled to a hearing before the board. He has grasped at that chance. The hearings will begin this afternoon at 3 o'clock.

Mr. Heeter was not present at the meeting, but was represented by his counsel, Clarence Burleigh. The school head was awaiting the result of the meeting in Mr. Burleigh's office. It was telephoned to him just as soon as the meeting was over.

The decision to give Mr. Heeter another trial came after Miss Beulah Kennard, member of the board and head of the Pittsburgh Playground association, had launched a surprise in the meeting. The committee's finding had been read. Mr. Leoffler had made his motion to take steps toward canceling Mr. Heeter's contract when Miss Kennedy obtained the floor.

Appeals for Hearing.

"I wish to make a statement," she said. "Only today I have gained positive evidence that at least one of the charges against Mr. Heeter resulted from coercion and collusion. I believe he should have an immediate public hearing by this board."

Then she sat down and N. B. Criss, chairman of the finance committee moved that a public hearing be granted the school head under the rules of the school code. The time for the hearing was fixed afeer a consultation with Attorney Burleigh. The committee's report was made public at the conclusion of a long and tedious meeting. The board, under the guidance of D. B. Oliver, its venerable president, disposed of numerous routine items, then Mr. Oliver arose, reached in his pocket and extracted a long brown envelope.

Report Is Sealed.

Holding it up so that all present could see that it was sealed, he said:

"I will no wproceed to open and read a communication presented to me last Friday and which has been in my possession ever since. I know, you all know, it is the finding of the committee we appointed to investigate certain rumors regarding the conduct of Superintendent S. L. Heeter. I don't know what this report contains nor do I believe does any other member of this board."

The report began with a preamble, regarding the board's instructions to the committee, then it got down to straight facts and the committee's finding. In part it read:

"The committee was delayed in beginning and completing its investigation by causes over which it had no control, and with which you are familiar. The committee did not investigate the rumors that were circulated with reference to Mr. Heeter's life in Indiana and Minnesota, farther than to send a representative to Indiana, to make preliminary survey for use if the committee should finally conclude to enter upon a personal investigation in those states.

Submits Indiana Data.

"Such personal investigation having been found unnecessary the committee makes no report and no findings on said rumors, but transmits to you the report of and the data collected by its representative in Indiana.

"The committee did investigate a large number of rumors in this city and found all of them to be absolutely groundless. The committee made no investigation of the Ethel Fisher charges because it felt bound by the verdict of acquittal by the jury.

"The committee finds S. L. Heeter, superintendent of schools, guilty of making improper advances and taking unwarrante liberties with the following women:

"'First, Mrs. W., a former stenographer employed in his office; second, Miss X., a teacher in the public schools; third, Miss Y., a former domestic in his home."

Used Position Dishonestly.

The finding of the committee was unanimous on teh immorality charges, but in the matter of an alleged refusal to pay the bill of a teachers' agency, the majority found that "the superintendent made an improper and dishonest proposition to use his official position in order to compromise a claim made against him individually."

The latter case, known as the Brewer letter, was brought about by a claim for moneys alleged to be due for services in securing Heeter his position. In response to letters Heeter is said to have written one offering to find positions under his jurisdiction for applicants to the agency in payment of the claim against him. The dissenting vote was that of Rev. George R. Shelton of the Second Presbyterian church.

Wit hthe report the committee submitted to the board of education, a sealed bulky package, containing the testimony taken in the committee's investigation. This the board declined to make public.
